In July, 1974, we started our pistachio adventure...50 years ago! Stationed at Holloman AFB, in New Mexico, we learned to love the desert. Born and raised on a farm in the Midwest, George had always planned to go back to farming after his Air Force career, but we wanted to stay here. So he gave me and the kids a mission—find something that grows in the desert! And we did. We discovered where we lived had the identical match to the pistachio growing regions of Iran. We hadn't seen a tree yet, but we thought we could learn what to do. The rest is history. It's been quite a ride!
